MEMORANDUM FOR THE RECORD

TRIP REPORT

PLACE: [REDACTED] 17 November 1964

SUBJECT: Dual Viewing Microstereoscope, Zoom Tube
Magnifier and the [REDACTED] 0002 ft. Scale Disk

ATTENDEES: [REDACTED]

2
25
2

1. [REDACTED] had not signed the "Dual Viewing Microstereoscope" contract because of some doubts over the technical specifications incorporated into the contract. This problem was discussed with them, to insure a correct understanding of their position, and was then referred to [REDACTED] along with our technical recommendations.

2. The "Zoom Tube Magnifier" is progressing as programmed. The prototype should be assembled by the middle of January.

3. [REDACTED] was requested to obtain a price quote for quantity retrofitting of the dovetail rhomboid modification.

4. [REDACTED] was given an opportunity to discuss multi-sensor viewers with [REDACTED]

5. A price quote was obtained on a contract for the production of 10 [REDACTED] 0002 ft. scale disks. A copy has been given to [REDACTED]
